

LPD LAB SERVICES LIMITED QUALITY POLICY

“A unique combination of analytical equipment,
techniques and investigative experience”

Our goal is customer satisfaction. We are committed to providing an excellent service and have implemented a full quality assurance system.

The LPD Lab Services Limited management will continually improve the quality system, using a risk-based thinking approach adopted by everyone in the business. This identifies significant risks to the business, opportunities to be explored, all within the confines of the international standard ISO 17025. The laboratory staff are all fully competent in using the quality system to ensure the validity of testing results, in a confidential and impartial manner.

The laboratory is fully committed to the following:

- Maintaining a quality management system which meets the requirements of ISO 17025:2017 - Option A
- Manage & perform laboratory activities by providing appropriate personnel, facilities, equipment, systems and support services
- The management system will be continuously improved, identifying significant Risks & Opportunities and taking appropriate levels of action
- Ensure laboratory staff are fully competent in using the quality system
- Operate within the spirit of all relevant legislation
